MINECRAFT LEGENDS

OUT APRIL 18!

GENRE: ACTION-STRATEGY SYSTEM: XB1, XBSX/S, NS, PS4, PS5, PC

In **Minecraft Legends**, the **Piglins** are invading, and their **Nether** corruption is spreading across the **Overworld**. A hero is needed to unite mobs and save the land from destruction!

Your epic adventure begins at the **Well of Fate** with just a couple of tools to start you off. From there, you'll travel through different biomes collecting resources to build defences as well as form allies as you go.

Old foes like **Creepers** and **Skeletons** will become your new friends! Forming unlikely friendships like this will be crucial if you want to send the **Piglins** packing back to the fiery dimension!

Make sure to have your battle strategy ready to target **Piglin** bases and protect your allies. Whatever you do, don't let your guard down – these hostile mobs won't go down without a fight! The biomes look stunning, and we can't wait to get exploring.

Players can also use a variety of mounts, not just a horse. There's also a purple regal tiger and it looks totally awesome!

If you're feeling competitive, you can challenge your friends or battle side-by-side to protect your village. Separate from the main campaign, up to eight players are split into two teams with the aim of capturing and destroying their opponent's base – how cool does that sound?!

While there's a lot you'll recognise, the gameplay and story are totally different from other **Minecraft** games. We think this is going to be an awesome way to introduce the world of **Minecraft** to gamers who've never played it before!

GENRE: ARCADE-PARTY PLATFORMER **SYSTEM:** NS, PS4, PS5, XB1, XBSX/S, PC

SUPER BOMBERMAN R2

Just when the eight **Bomberman** brothers thought peace had been restored to the universe, another threat looms. A giant robotic moon appears to be the villain who must be stopped before it's too late!

Super Bomberman R2 is an all-new galaxy saving adventure marking the 40th anniversary of these retro heroes. From the Story Mode we can expect exploration, base building, and boss battles. It seems like the new character **Ellon** will also play some kind of important role in the game.

We're most excited to try Castle, the new battle mode. A team of up to 15 players will blast their way to treasure chests while one defending player must fight them off. This sounds intense, but it looks really fun!

There's also a 64 Battle Royale Mode, Grand Prix, and a Standard Battle Mode to check out too. Overall, we think this is a cool way to mark such a massive gaming milestone!

KUKOOS: LOST PETS

Kukoos: Lost Pets is a fun platformer, which can be played entirely in co-op with up to four players! What's most cool about it is that in each new world you team up with a different lost pet. They each have a different set of powers, so things always stay fresh.

Sometimes sections of the levels can be challenging, with checkpoints that are quite far apart, but luckily, it's never too impossible.

There are lots of secrets to discover as well, with hidden collectables such as happy flowers and new unlockable characters in every world, too.

The game looks really good, and it often feels like you're playing in a 3D cartoon which we loved! However, if you're playing on the **Switch**, you'll find that with so many things happening on screen at once, it can slow things down a bit. We'd recommend playing on a different console if this bothers you.

SMURFS KART

Smurfs Kart is a kart racing game starring the iconic tiny blue heroes! It's a lot like **Mario Kart**, where you combine racing skills and use items at the right time to get your go-kart into first place.

There are 12 racers to choose from, including old favourites like **Papa Smurf** and **Smurfette** as well as newer ones like **Blossom** and **Clockwork Smurf**. A lot of the races often take place in **Smurf Village**, although there are some other locations where races happen as well.

The controls are good, and it's fun to play, but **Smurfs Kart** is quite short in comparison to other racing games. It only has twelve racetracks and two kart speeds, and it doesn't include a Challenge Mode or online multiplayer. It does have a Mirror Mode, but that doesn't extend the playtime for very long. If there is a sequel in future, we hope that the next game has more to do!

YOU SUCK AT
PARKING

Are you ready to take parking to the extreme? **You Suck at Parking** is a seriously fun twist on traditional racing games – where your goal is to STOP the car!

We couldn't see ourselves getting bored of this game. Tired of your car? Just customise it! Getting lonely? Tap into Friend Mode, where you and your pals can stop 'till you drop! Getting used to controls and navigating into spaces can be a challenge, but once you've got the hang of that, you'll be cruising through the levels! The **You Suck at Parking - Season 2: Inferno** update sees the game level up your ride to a flaming hot wheel.

You can set your engine alight for an extra boost on the map, just be speedy with the extinguisher or your ride might explode! The update also gives players the chance to earn cash in challenges and explore new lava and jungle biomes!

HOT TIPS:

STICK TOGETHER! Hacking all the computers on each map takes ages. If you team up with fellow players to hack the same device, you'll drastically increase the speed for completion!

GLOWING MARKER! The loud scary music lets you know the Beast is nearby, but it doesn't tell you where they're going to appear. If you watch the walls and doors, you can spot a red glow surrounding the Beast, giving you the heads-up needed to hide!

JUMP AND SLIDE! The Beast is faster than you, so you need to use your wits to escape! It can't go through small gaps, and jumping objects takes serious time, so when making your escape, always try to crawl through vents, jump over counters and go through windows!

THE DOS AND DON'TS OF...

ROBLOX PIGGY

CAN ANYONE SMELL BACON?

DO

TRICK PIGGY!

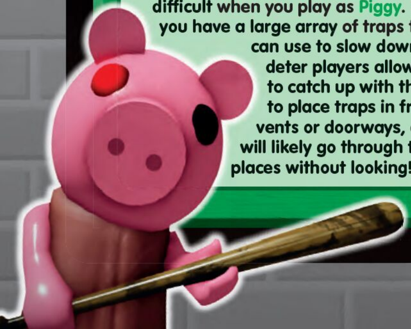
● Many maps provide sneaky escapes to create distance between you and Piggy. Make sure to use these to your advantage when things get tough. On the house map, there's a vent on the top floor that only players can enter, so lure Piggy upstairs and escape through the vent to buy yourself time!

ASSIST ANIMALS!

● Not all the animals in Piggy are out to get you – some are your friends! For example, on the gallery map, you can give a bone to the dog by the staircase. The dog will return the favour, knocking out Piggy and giving you time to escape!

LAY TRAPS!

● Capturing all the other players can be difficult when you play as Piggy. However, you have a large array of traps that you can use to slow down, stun or deter players allowing you to catch up with them. Try to place traps in front of vents or doorways, as players will likely go through those places without looking!



DON'T

STAND STILL!

● Piggy is always on the hunt – if you're sitting around not paying attention, Piggy will catch up to you and ruin your day! You should always be on the move, looking around for any signs of danger or dead ends.

CHASE IN A STRAIGHT LINE!

● When you're charging after a player, don't run in a straight line! You and the player run at the same speed, so you'll never catch them. Instead, try cutting them off by going in another direction where you know you'll meet up with them later.

CARRY USED ITEMS!

● Always swap out your inventory for new and valuable tools and gear to help you solve the puzzles and get away. You don't need used items, so let 'em go and save precious inventory space!

PIGGY'S GONNA GET YOU!

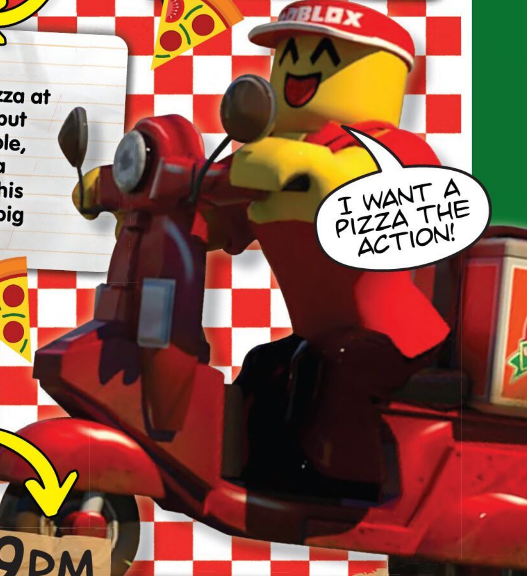
10AM

Morning cartoons = **Teenage Mutant Ninja Turtles**. We've loads in common, apart from the teenage, mutant, ninja or turtle bit... But they love pizza almost as much as I do!

1PM

If I make a pizza at home and then put it on my own table, have I delivered a pizza to myself? This is really one of the big questions in my life.



4PM

I watched two customers arguing over whether pineapple should go on a pizza. Of course, it should! Gotta get that five a day in somehow!

I'm at work delivering pizzas all night. If I don't get there in 30 minutes or less, the customers will get them free! I better stop writing about pizza so much and make some delicious deliveries instead!

What tips would you give to gamers who are new to Minecraft?

- Make sure to build a house on your first day, even if it's only made out of dirt. You don't wanna get a visit from a few zombies if you're out in the open!
- Always carry wood and sticks when mining, then you can craft extra pickaxes or torches!
- Make a pig, cow, chicken, or sheep farm in the first few days, then you won't have to worry about running out of food!

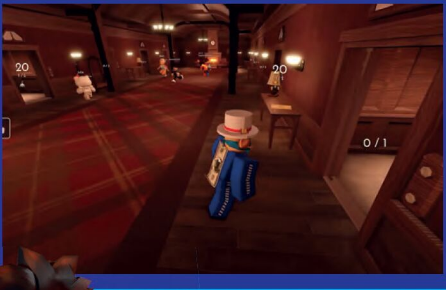
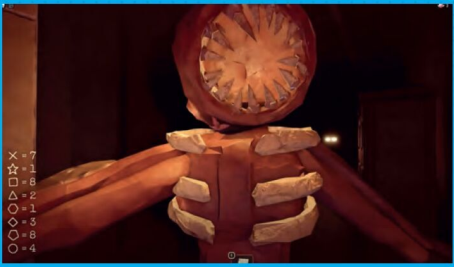
WHAT IS IT?

"In **Doors**, you and your friends must journey through a spooky hotel, collecting resources and avoiding the monsters. Each door is a new experience with a chance to contain a different creature that you'll have to find a way to beat! There are plenty of other cool things to find in the rooms and escaping the hotel can be pretty challenging!"





BEST BIT!

"My favourite part of **Doors** is the infinite replayability. Every playthrough is different as the rooms are randomly generated, so besides the boss levels, each room will be different from the last.
